WON MEDALS IN MUSIC FROM MANY CONTESTANTS.

Miss Essie Duncan won the gold medal in the senior class and Miss Mattie Jennings won the gold medal in the junior grade.

The winning of the medals is quite an honor as there were twenty contestants and their work has been the study of Mason's advanced methods in touch, technique and phrasing, requiring very hard work, and the young ladies have been receiving a good many congratulations while their teacher is naturally very proud of the winners.

Miss Kehoe will resume her regular classes early in September, and during the brief vacation continues to conduct the studies of her pupils in special courses.

MRS. KERR ENTERTAINS FOR MISS HILSON.

Before the departure of the guests for their homes ices and cakes were served, and everyone present pronounced the event one of the most pleasant of the season.

THE OLD TRAINING SHIP PENSACOLA.

(Continued from Ninth Page.)

Civil War, and sailed to Washington to be fitted out. About August, 1861, she was put in commission with the veteran Capt. Henry W. Morris as commander, and Lieut. F. A. Roe, now rear-admiral, as executive officer.

While preparing for sea, Lieut. Roe was ordered, temporarily, in great haste, in consequence of the defeat at Bull Run, to occupy with 500 seamen, Fort Ellsworth, near Alexandria, and so occupied it on the left of McClellan's line, until the Army of the Potomac went down to the peninsula, when he returned to his ship. The passage of the Pensacola down the Potomac was an exciting and somewhat memorable one. The river was blockaded for nine miles by a succession of rebel forts and batteries on the Virginia side, the officers of which were under strict orders not to permit the passage of any vessel.

President Lincoln and his cabinet were honored guests on the ship until the batteries were reached, when they were taken off and returned to Washington, while the Pensacola pursued her course through nine miles of unrelenting fire, down the river to Hampton Roads without serious injury. She accompanied the Hartford, with Flag Officer Farragut to the West Gulf blockading squadron, arriving off the Mississippi, March 7, 1862, and participated in the blockade of the coast and the long preparations for the coming battle. The old Pensacola took active part in the battle of New Orleans. She was hotly engaged during her entire passage of the forts and the enemy's boats for an hour and a half firing chiefly with grape and canister.

Capt. Morris and Lieut. Roe received strong commendation from Commodore Farragut in his official report, and the latter was recommended for promotion for his skill and bravery in action. The Pensacola also took a very active part in the attack at Vicksburg and other engagements in connection with Farragut's fleet. She was badly damaged, and after being sent to the docks for necessary repairs, remained on duty in the Gulf for the next two years, sometimes serving as a flag ship of the squadron.

After the war, the Pensacola went to the yards and, thoroughly overhauled, repaired and refitted sailed in August, 1869, for the Pacific ocean, under the command of Capt. John L. Worden, who will be remembered as the gallant lieutenant who was in command of the Monitor in her encounter with the Merrimack in Hampton Roads.

She remained on the Pacific station, usually as its flagship, until the latter part of 1883, when she began her homeward voyage under the command of the present Rear-Admiral Henry Erben.

The Pensacola was again thoroughly repaired and fitted out at the Norfolk Navy Yard for duty as the flagship of the European squadron. She was at that time commanded by Capt. Geo. Dewey—"the hero of Manila"—and flew the flag of Rear-Admiral Frank. Upon her arrival from Europe, the Pensacola made a trip to Africa on special duty, and then came again to the Pacific station. Years after, the old war-scarred veteran was fitted up as a training ship, and placed at Yerba Buena Island where she has been ever since. The Pensacola bids fair to render efficient service in that capacity for years to come.

THE PENSACOLA CLASSICAL SCHOOL

OPINION OF EDUCATORS AS TO ITS WORK.

Prof. Walter Miller, professor of Greek in Tulane University, after visiting the classical school, wrote the following unsolicited opinion to a friend and colleague:

"The Pensacola Classical School is doing a splendid work for the cause of southern education. It is established upon broad principles, it cherishes the highest ideals of scholarship; it maintains a high standard of excellence; and by the best modern methods and equipment it secures thoroughness of training comparable with that afforded by the great fitting schools of the east. To my mind the Pensacola Classical School is one of the very best secondary schools of the south."

Dr. Venable, president of the University of North Carolina, writes: "It gives me pleasure to testify to the thoroughness of the preparation of the students who have come from your school to the university. We should be glad to have more of the same type."

Dr. Geo. Petrie, professor of Latin and History in the Alabama Polytechnic Institute, writes: "I consider the Pensacola Classical School one of the best fitting schools in this section of the south. I can confidently endorse the thoroughness of its work and the healthy, manly atmosphere that pervades the institution."
